Library

- **Librarian 1:1 help** with Research & Citations—Can't find good sources? Not sure how to credit your information? We're there. Text, email, chat, or schedule a WebEx meeting with us.
- **Library barcode numbers** get you access to the virtual collections -- request yours online!
- **Bookless** — The digital library means 24/7 access to e-books and articles from off-campus and during library hours in our open computer lab.
- **Research Guides & Tutorials** are also available 24/7 to help guide through our resources, even if we're not available (or you're feeling shy about asking).

Academic Coaching

ONLINE TUTORING VIA UPSWING

LSC-UP students can sign up for Upswing accounts, unique to our campus. Upswing gives you access to our own tutors as well as Upswing employees, which means you've got 24/7 tutoring support!

Meet Ana — Upswing's virtual assistant who'll text you reminders about upcoming assignments and other helpful hints.

MATH & SCIENCE

For students of all levels of math, chemistry, physics, biology and A&P, and accounting to get you where you want to be in your classes. Help is 1:1 and online.

WRITING LAB

Writing Consultations — Students may bring drafts of written assignments to work on with our writing consultants one-on-one. Proofreading is not performed — these are big revisions.

Assistive Technology Lab

The AT Lab facilitates services described on accommodations forms, including providing reader-scribes for note-taking, format-shifting textbook content, and more.

Unlike the other SLRC services, this one is not available to all students. If you need a learning accommodation (even temporarily! if you e.g. break your writing hand mid-semester), you must get the form through the Disability Services office.

We'd love to hear from you!
